

# Professional standards for assisting teaching

Welcome to these pages which will help guide you through the professional standards for assisting teaching. The standards are part of a range of standards for teachers, leaders and those who assist teaching. They have been designed to support you to be the best you can be and they reflect practice that is consistent with the realisation of the new curriculum.

From 1 September 2019 the standards will be available for use by all teaching assistants (TAs) and higher level teaching assistants (HLTAs) to reflect on their practice and identify professional learning.

### A new model for professional standards

After working with TAs, HLTAs, teachers and leaders across Wales, we have five professional standards for assisting teaching for TAs and HLTAs with an overarching set of values and dispositions which should drive everyone who works with learners. The standards concentrate on the essential elements of assisting teaching – pedagogy, collaboration, leadership, innovation and professional learning – and will underpin the development of the significant part of our school workforce that assists teaching, contributing to the transformation of our education system in Wales. The new standards have been developed with the profession, for the profession, to be relevant to the day-to-day work of those assisting teaching.

Each standard is divided into elements with descriptors that exemplify how the standards could apply to their work depending on where they are in terms of their role and career.

The **lower descriptors** exemplify effective practice.

The **upper descriptors** exemplify sustained highly effective practice.

TAs seeking HLTA status should be demonstrating sustained highly-effective practice in the relevant descriptors before undertaking the HLTA scheme and if successful, being awarded HLTA status.

#### Who will use them and when?

This set of professional standards for assisting teaching will be introduced from September 2019.

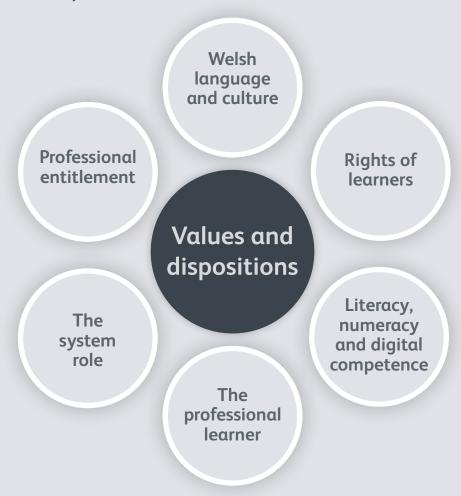

Beneath each of the five standards there are a number of elements supported by a range of descriptors. These are for practitioners to explore in a developmental way – not as a checklist – by showing what sustained highly effective practice looks like.

Those assisting teaching will be able to use the EWC's Professional Learning Passport (PLP) to reflect on their professional experiences and map them to the professional standards for assisting teaching.

You can begin to explore the professional standards on the next page.
