National model phase specific report

Phase 6: Refining

Definition: during this phase the PLC will refine or refocus the trialled strategies based on the data/evidence collected.

When completing this phase describe how you:

- considered the effectiveness of the strategies being trialled, based on data and evidence collected and shared
- considered refining or refocusing strategies to maximise impact and effectiveness
- continued to trial the strategies over a period of time and in a range of contexts
- continued to collect data and evidence on the impact of the strategy or strategies.
