# Welcome to the Careers Resources Directory

## Who are we?

Careers Wales is the national careers service for Wales, owned and remitted by the Welsh Government. Our vision is to create brighter futures for the people of Wales through access to high quality, impartial careers support that makes a positive impact on individuals' education, economic and wellbeing outcomes. For more information about Careers Wales, our work and vision please read [Brighter Futures](#) our vision document.

## What is the purpose of the Careers Resources directory?

The Careers Resources Directory has been developed to give you an insight into some of the resources available to support you to embed Careers and Work-Related Experiences (CWRE) in your curriculum.

All content is correct at the time of publication. However, please note, whilst the directory highlights and signposts a wide range of resources, it is by no means an exhaustive list.

## Want to find out more?

If you are interested in finding out more about careers and work related experiences (CWRE) and how you can plan to embed this statutory area cross-cutting theme into your curriculum, please visit the [education and teaching professionals](#) section of our fully bilingual website. You will find information about your statutory obligations, design and planning CWRE in the curriculum, links to professional learning, resources, employer engagement, updates and subscription to our quarterly newsletter.
