

RADY

Raising the Attainment of Disadvantaged Youngsters

@RADY_Louise

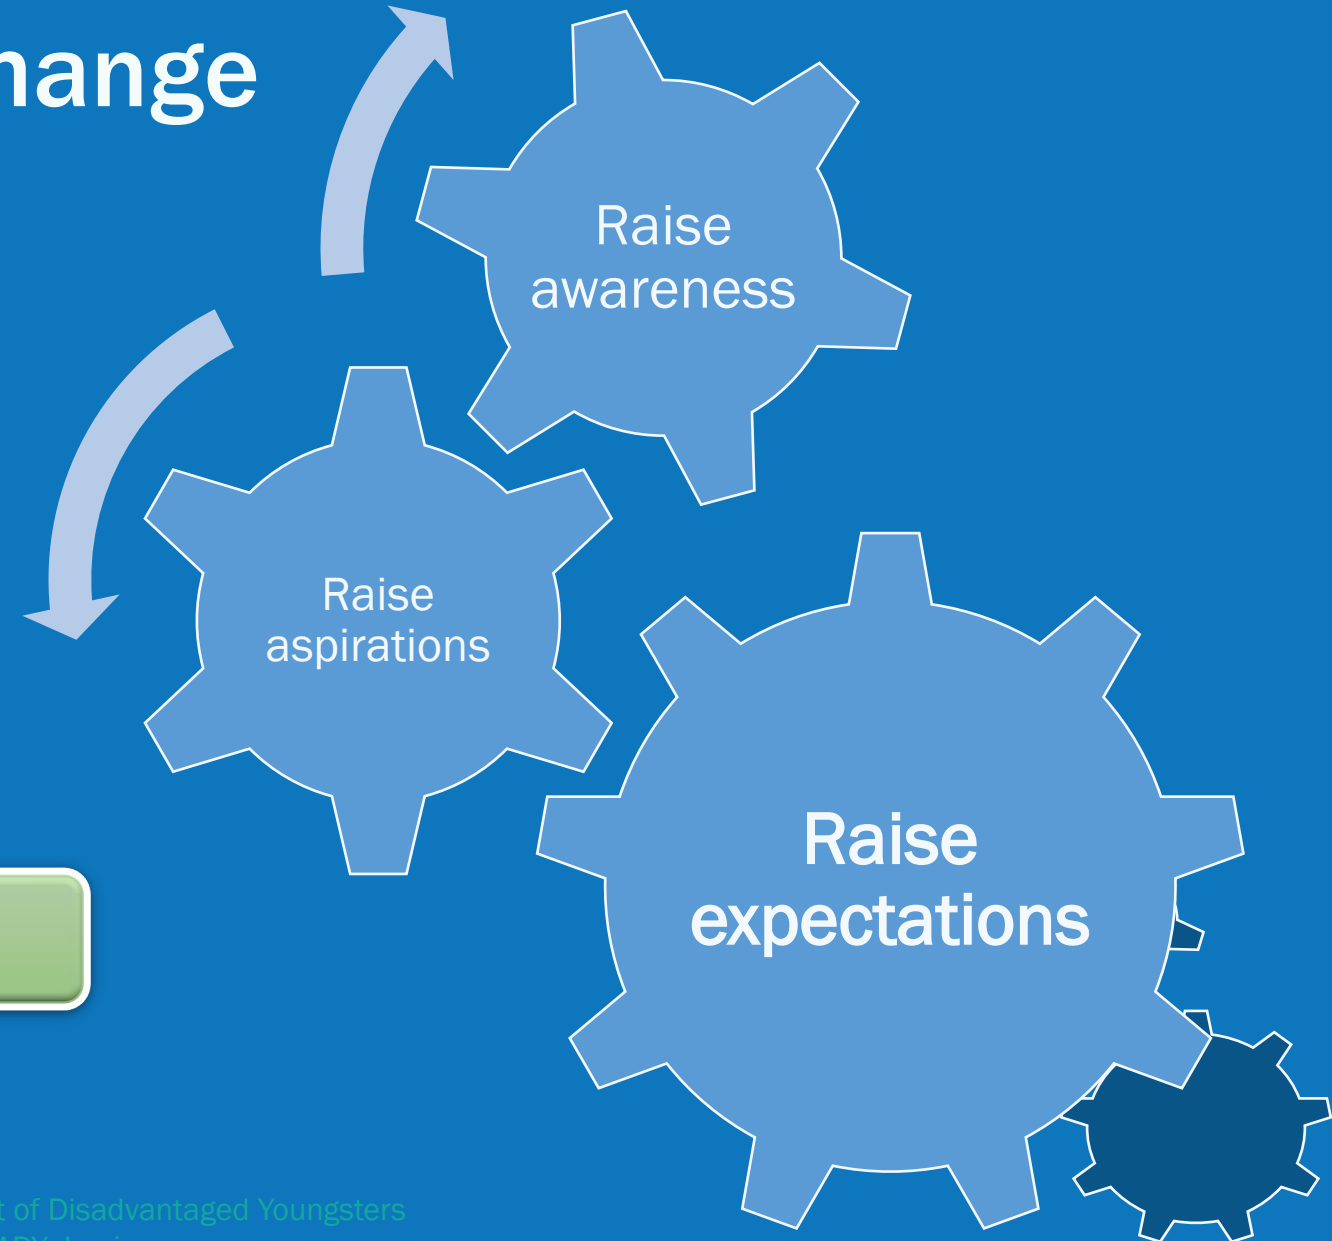

“Get out of jail free” card....

- Not all poor children lack support at home or do badly at school
- Not all ‘Free School Meals’ children are currently ‘poor’
- Not all children who *should* receive FSM funding do receive it
- Not all ‘better off’ children are well supported at home

RADY: A catalyst for change

- Target setting
- Expectations
- Hard to reach?

Change the narrative....

Target setting

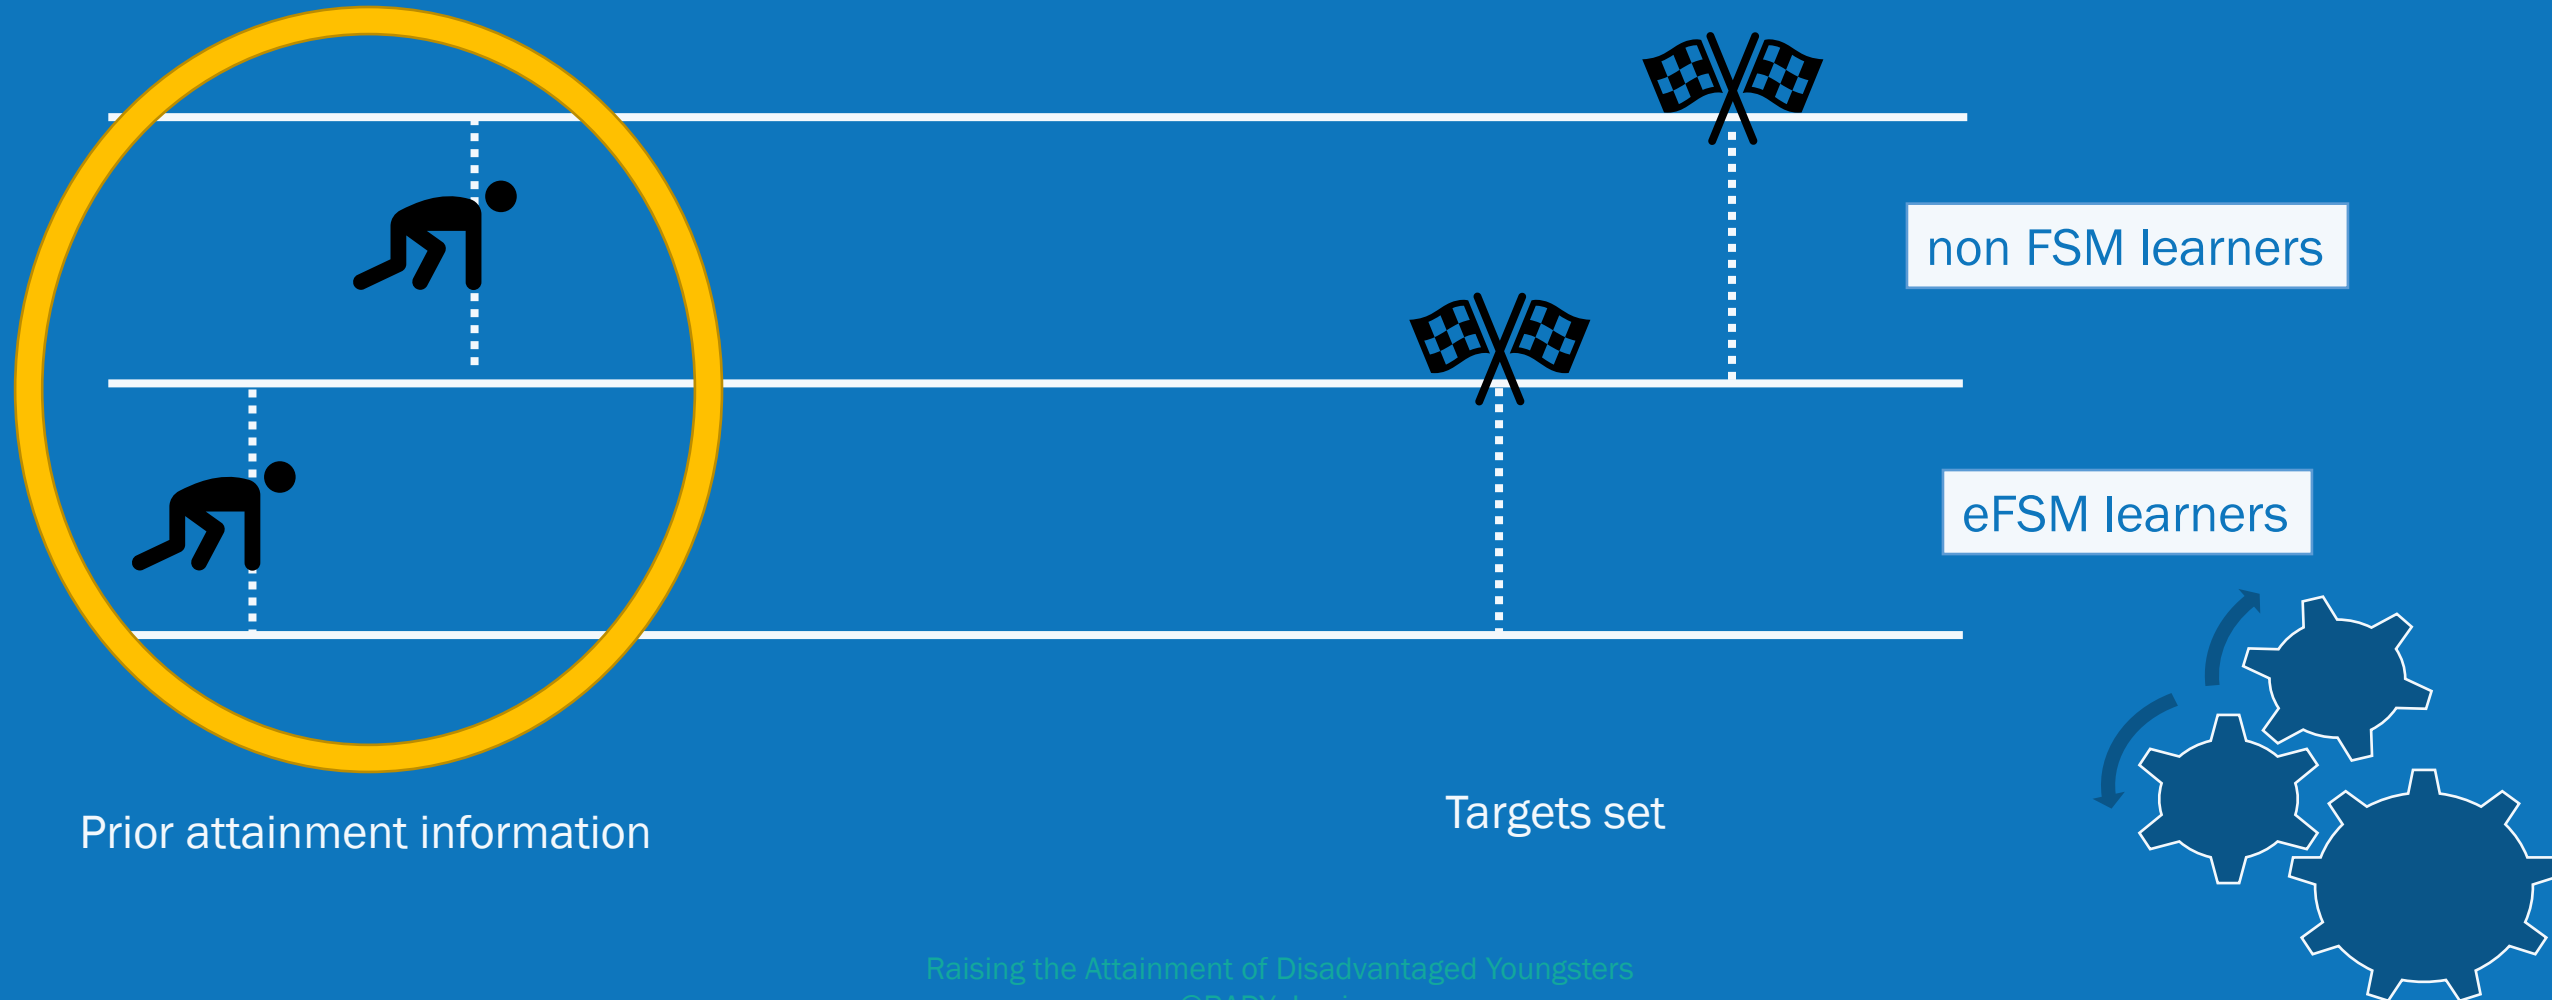

Problem number 1

Raising the Attainment of Disadvantaged Youngsters
@RADY_Louise

This is what schools are asked to do

Evidence

On-entry assessment

- For every eight non-FSM children who were assessed at outcome 2, there were four non-FSM children who were not.

The corresponding figure for eFSM children was twelve

Raising the Attainment of Disadvantaged Youngsters
@RADY_Louise

What we see

‘Table’ or group is determined

Different work for different groups

Intervention(s) are used (or not)

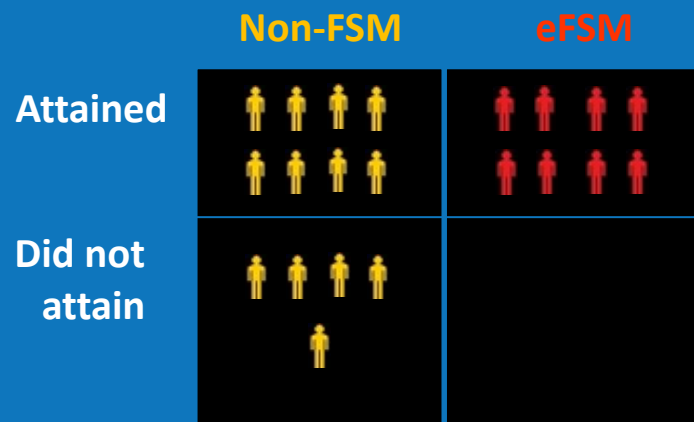

Course choices are influenced

Expectations are adjusted

Evidence?

When students finish KS4..

- For every eight non-FSM students who achieved the Level 2 Inclusive measure, there were five non-FSM students who did not.

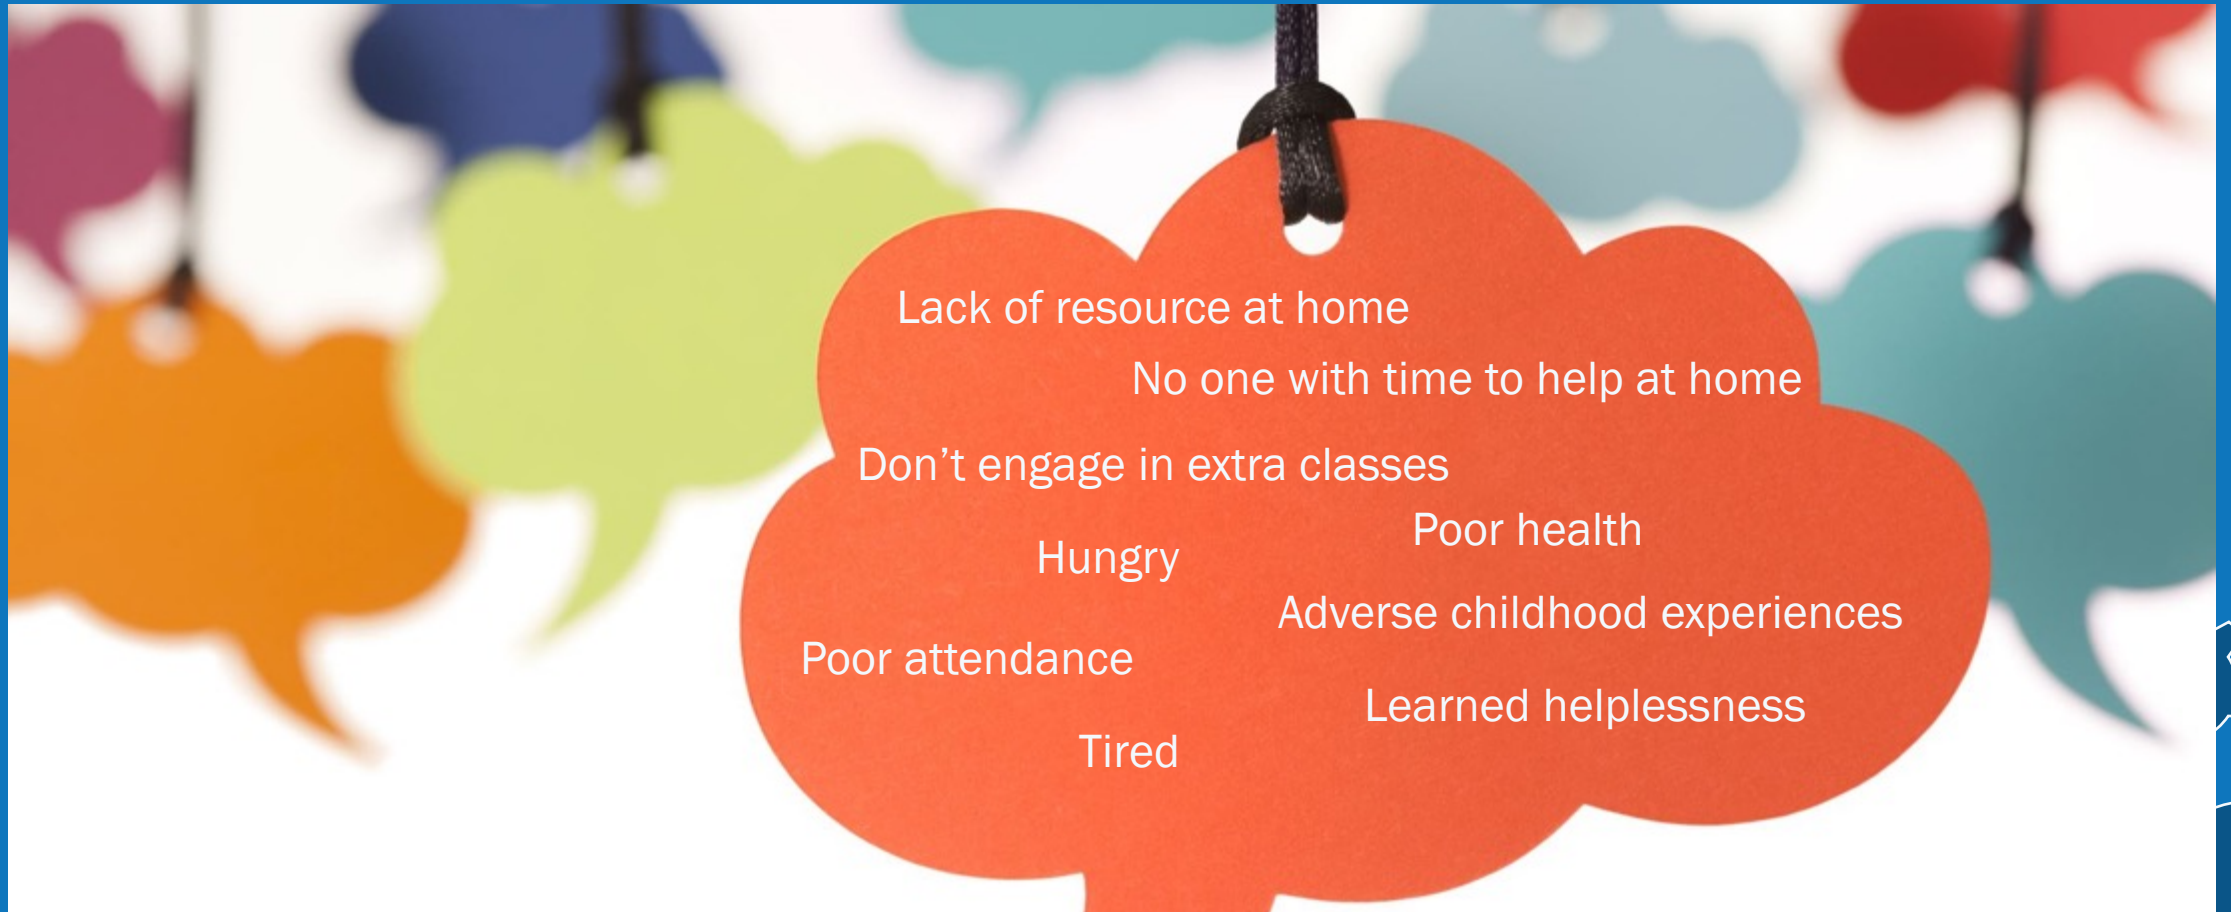

The corresponding figure for eFSM children was seventeen

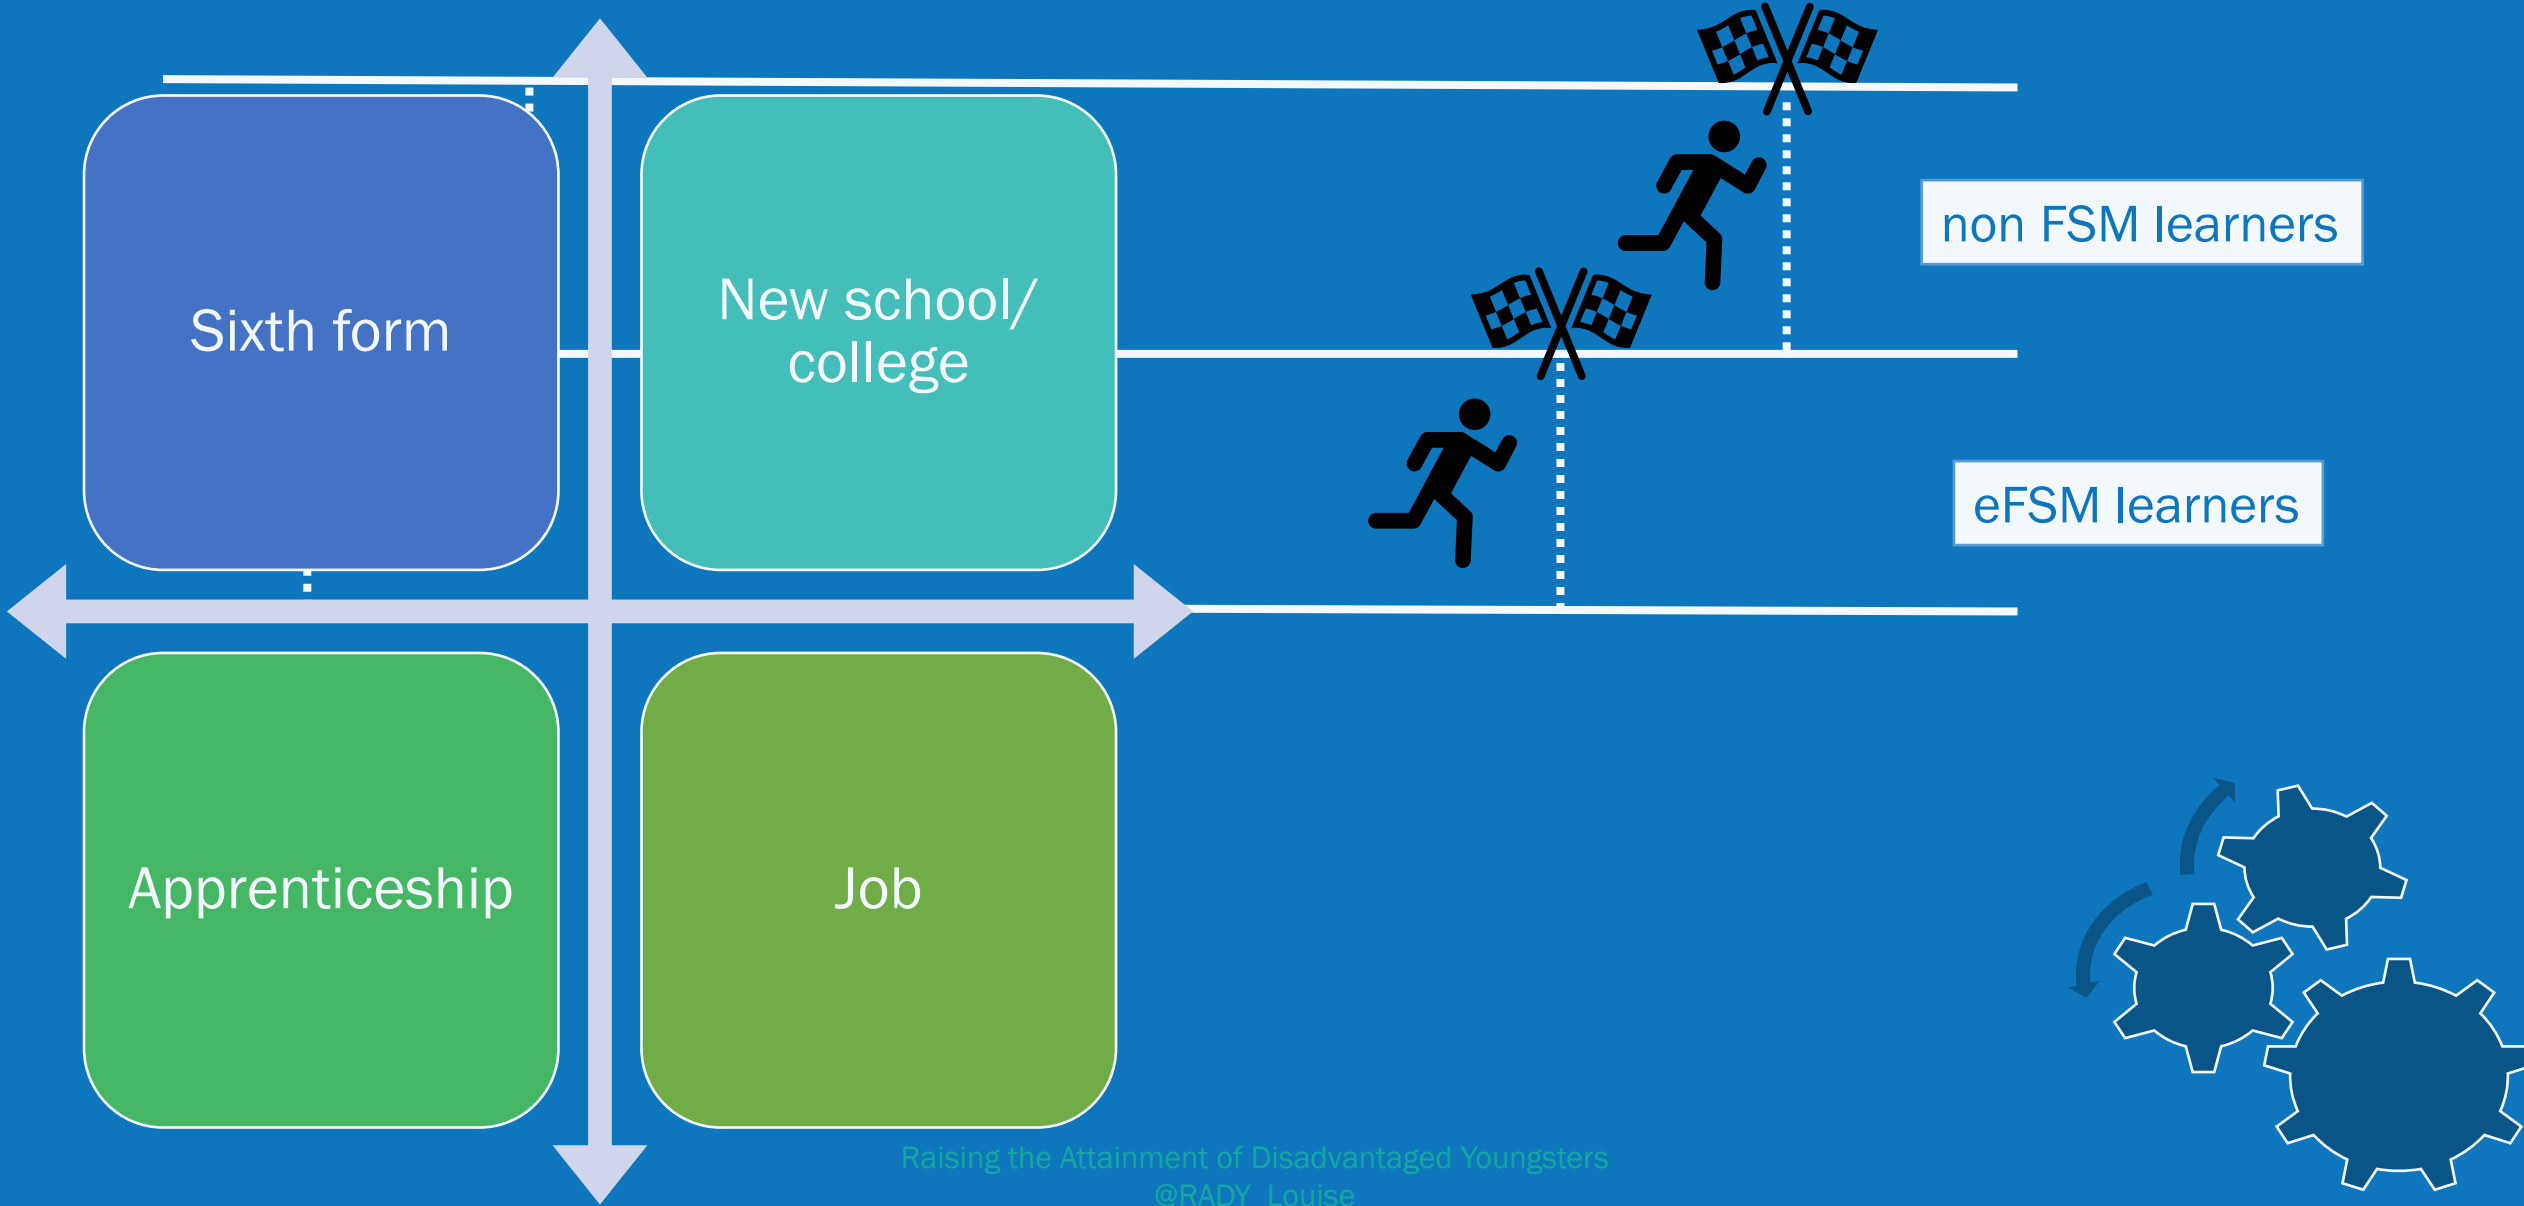

Raising the Attainment of Disadvantaged Youngsters
@RADY_Louise

What we know

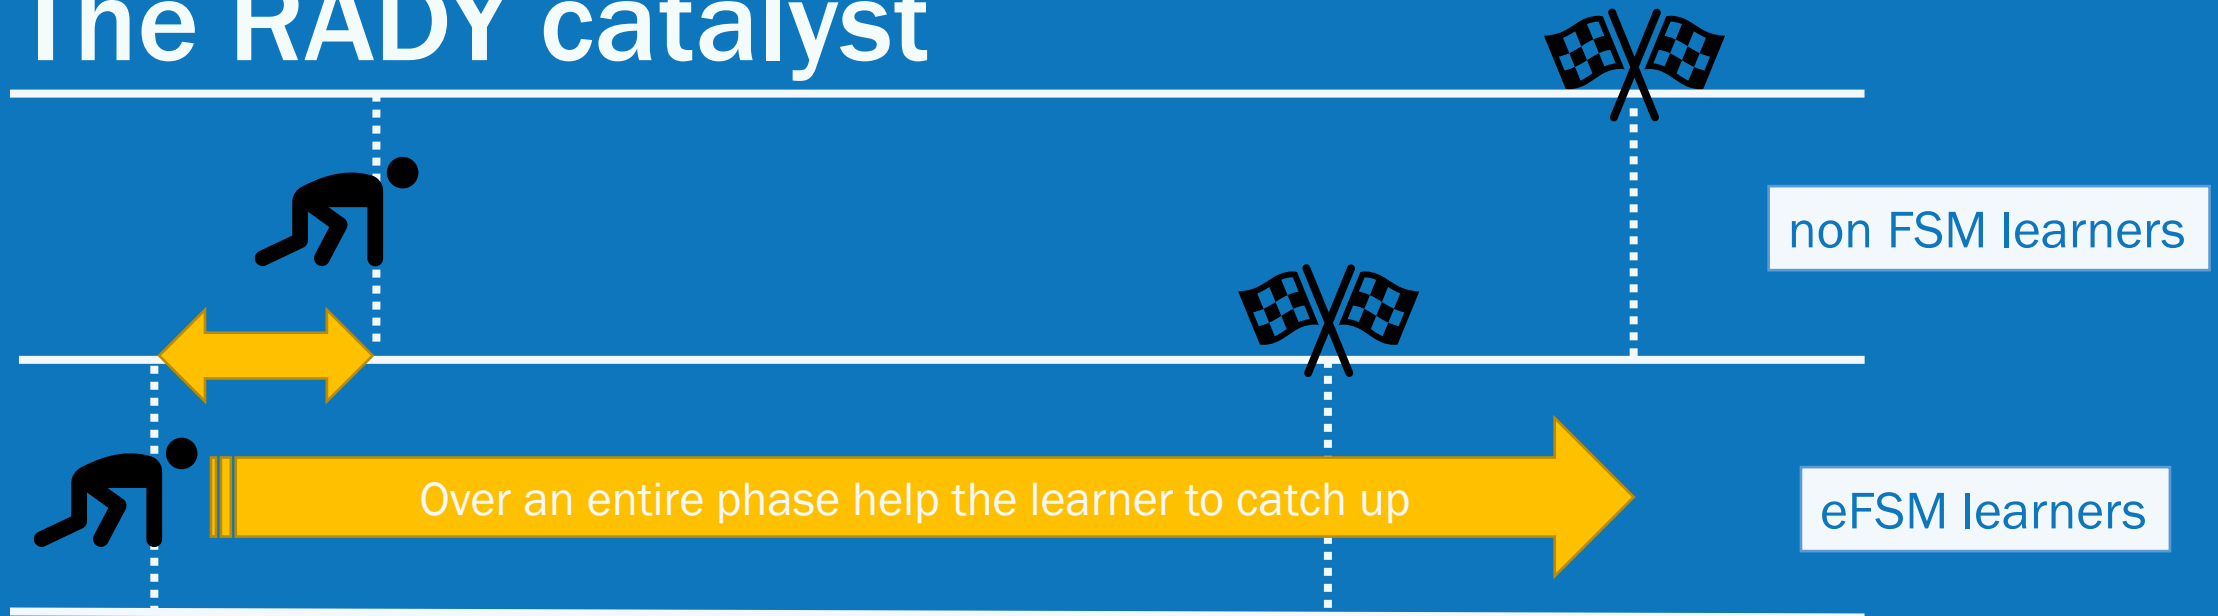

Target setting

Solution

The RADY catalyst

- Calculate the average starting point of eFSM and non FSM
- Find out the difference
- Add on that difference to every eFSM learner
- Now you know where they would have started if they were not eFSM...
- Raise their targets to match this

Change the narrative....

EQUITY

Teacher expectations

Problem number 2

Factors that influence teachers' expectations

- Teachers' beliefs about intelligence
- Socioeconomic background of the learner
- Gender of the learner
- Ethnicity of the learner
- Conduct in school
- Conduct in the classroom
- Previous test scores/previous academic achievement
- Older sibling's performance

Alderman, M.K. (2008). Motivation for achievement: possibilities for teaching and learning. Routledge, NY

Why does this stack the odds against our eFSM group?

My thoughts/research

Conduct in
school

- Different social norms
- Don't believe they fit in

Conduct in
class

- Haven't been taught the 'emotional keyboard'
- Learned helplessness

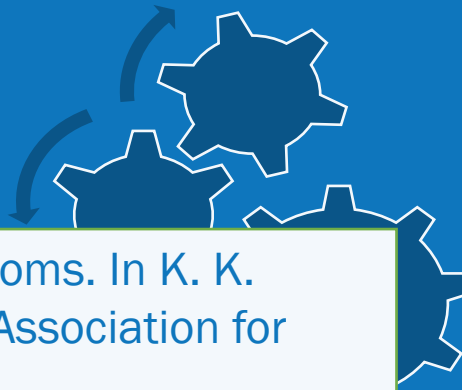

Previous
test scores

- Likely to be lower (Problem 1)
- Further fuel to beliefs about 'ability'

A vicious (and ever declining) cycle

- Praise for relatively simple tasks
- Not 'calling out' for lower standard of work
- Different questioning techniques:
 - Asking lower order questions
 - Less coaching/eye contact/encouraging
 - Waiting less time before asking someone else
- Less opportunity to perform publicly on meaningful tasks
- Less choice on work to be completed

Good, T. L., & Weinstein, R. (1986). Teacher expectations: A framework for exploring classrooms. In K. K. Zumwalt (Ed.), *Improving teaching* (The 1986 ASCD Yearbook), (pp. 63-85). Alexandria, VA: Association for Supervision and Curriculum Development.

Teacher expectations

Solutions

Understand factors that influence
our expectations

Use overt strategies to demonstrate
our belief in the learner's potential

Improved self-esteem, motivation,
willingness to work independently

How might that look?

Staff training: learned helplessness as a starting point

Differentiating teaching techniques to get to the same end point (Bloom, 1968)

“Rave about their effort, their concentration, the effectiveness of their study strategies, the interesting ideas they came up with..”
(Dweck, 1999)

Let them know that you believe they can improve their work – e.g. mastery marking (Thompson & Wiliam, 2008)

Ensure that they have been taught the metacognitive skills so they know how to study. (EEF toolkit)

Recognise the ‘extra’ (equity) that some will need *(in order to reach higher end points, put in the necessary effort, come up with interesting ideas etc)*

A person wearing a bright red jacket and dark pants is climbing a steep, textured ice wall. The climber is positioned in the lower center of the frame, reaching upwards with their right hand. A red rope is attached to their harness and extends downwards. The ice wall is composed of various shades of blue and white, showing signs of weathering and erosion. At the top of the frame, a large, irregular opening in the ice reveals a bright blue sky with some white clouds. The overall scene is dramatic and emphasizes the challenge of the climb.

Change the narrative....

Hard to reach schools?

Problem number 3

THEM

They don't
like people
like us

Us

No one in
our family
did well

We don't
fit in there

THEM

I don't believe
anyone can help
us

They don't
like us

I have no idea how to
help with the
reading/maths/Welsh

No one in
our family
did well

Us

I am worried about
the clothes I wear
and what others
might think

We don't
fit in there

Hard to reach schools?

Solutions

Named
person on
reception

Walk the
community

Website that
works on a
phone

Alternative
meeting
places

approach

Help with
transport

Asset framing

Defines people and communities by their strengths, aspirations and contributions.

How hard would it be for you and your colleagues to make a list of strengths, aspirations and contributions of your community?

Change the narrative....

All of Us

What we do...

- Help schools to launch, integrate and embed RADY
- Work alongside schools to understand the unique circumstances of their community
- Make equity, empathy and asset framing part of the 'everyday' in brilliant schools
- Link up schools and practitioners making life changing differences

Change the narrative....

‘Thinking Differently for Disadvantaged Learners’

ERW, EAS and GwE schools all have access to this.

Module 1: Settling In

Welcome to Module 1: Settling In. The sessions within this module take you through some top tips, ideas on getting to know your pupils and making sure that settling your most disadvantaged learners in to school includes sharing your high expectations

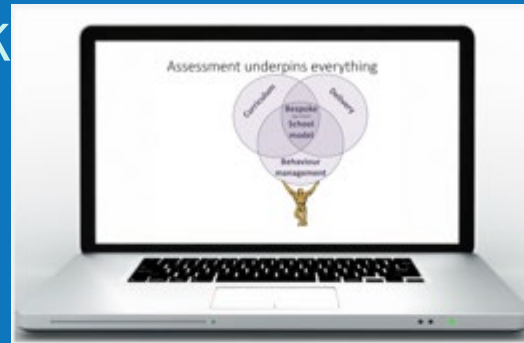

[View More](#)

Module 2: An equity-based ethos

Welcome to Module 2: An equity-based ethos. The sessions in this module will develop your thinking around an equitable approach to many aspects of education and remind us all of the challenges our most disadvantaged learners face.

[View More](#)

Module 3: Assessing the poorest child

Welcome to Module 3. We hope you start by watching the discussion with Roy Leighton, building on from 'Simon's story' in Module 1. There's a great discussion with primary and secondary leaders on equitable assessment

[View More](#)

Module 4: Hard to reach schools

Welcome to Module 4. It's a deliberately provocative title for a module packed full of great ideas for better engagement with parents, the community and of course learners and it starts with an inspiring case study from The John Frost School ...

• Cliciwch ar 'PLP' ac wedyn 'Register'

Rhowch Rhif Ysgol/URN
Mae yna linc i ddod o hyd i'ch rhif ysgol / URN os nad ydych yn ei wybod.

Bydd ffurflen cofrestru yn agor ...
• Canllawiau ar gael ar y tudalen hwn am bob rhan.

Nodiadau atgoffa defnyddiol:

- Rydych chi'n cofrestru ar gyfer 2 beth - y deunyddiau hyfforddi a mynediad i'r fforwm;
- Bydd rhif yr ysgol / URN wedi cofnodi yn barod fel yr 'enw defnyddiwr' a chi fydd yn gosod y cvfrinair ac yn RHANNU HWN GYDA HOLL STAFF YR YSGOL;
- Y LPL sydd yn cael mynediad i'r fforwm yn unig – gall yr 'enw defnyddiwr' fod yn unrhyw beth;

• click 'PLP' then 'register'

Enter school number/URN
• There is a link to look up your school number/URN if you don't know it

Opens up a registration form...
• Full guidance given on this page for each section.

Useful reminders:

1. You are registering for 2 things – the training materials AND forum access
2. The log in for training materials has URN/school number as the 'username' (SET FOR YOU), you set the password and SHARE THIS WITH ALL STAFF
3. The forum access is for LPL only, not shared, and username can be anything you like!
