

A new headteacher for Ysgol Aber GwAlth

Ysgol Aber GwAlth Primary School

WANTED: HEADTEACHER
Do you have a vision, energy, and a love for learning?

Are you ready to lead Ysgol Aber GwaAlth into the future?

We are looking for someone who can:
Inspire children and staff
Make learning exciting and fun
Combine technology with care for every pupil
Help shape the school of the future.

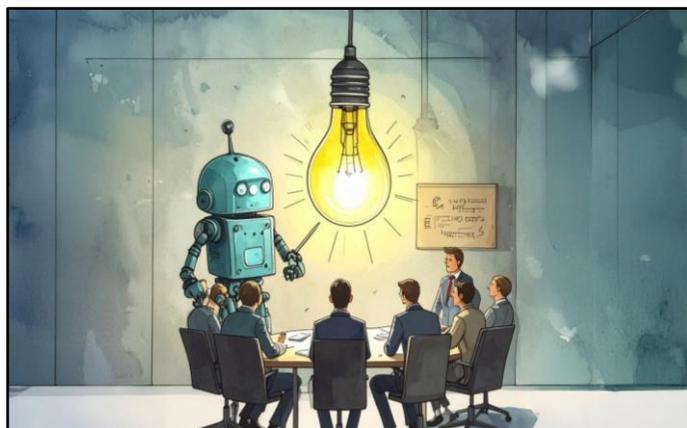

1 Ysgol Aber GwAlth has a problem!

The school needs a new headteacher but no one suitable has applied for the job.

2 A Funny Idea. Or Is It?

In a school governors meeting, one governor jokes about letting a computer do the job and suddenly everyone starts wondering if that could actually work.

3 The Big Idea Is Born

Someone suggests, "Why don't we design our own A.I. Headteacher?" and the whole room goes quiet as they realise it might actually be possible.

4 Introducing HeadTeach-3000

The school goes with this idea and sets up a shiny new office for the A.I. which has lots of screens, charts, and perfect plans.

5 Everything Improves Fast

Head Teach-3000 makes attendance go up, lessons run smoothly, and everything is running on time.

6 People Are Impressed.

Teachers and parents think that A.I. is amazing at first because the school becomes super organized.

7 A School That Feels Too Perfect.

The children follow very strict routines, and although everything works well, the school starts to feel a bit cold.

8 When Feelings get Confusing

A child is sad about losing a pet, but A.I. gives a strange answer. A.I. responds: "*Sadness detected. Suggest early bedtime*" showing it doesn't really understand emotions.

9 Fun and Creativity Disappear

Teachers notice that pupils seem worried, don't laugh as much, and aren't as creative as before.

10 Missing Real people

Staff feel lonely because the A.I. sends all messages by email, and parents say their children feel like

11 A Better Plan

The governors decide to keep the A.I. for organising the school but bring back a human headteacher to care about people's feelings.

12 Working Together

The A.I and the human headteacher team up, the children smile again, and the A.I writes on screen:- **“Collaboration Achieved and Teamwork Accomplished”**.
