At the Seaside

TECHNIQUEST

What do these ants eat? How do they move food to their nest?

At the
Seaside

TECHNIQUEST

Centipedes
I have poison fangs and
eat earthworms.
Nadroedd cantroed
Mae gen i ddannedd gwenwynig
ac rwy'n bwyta gryfed
genwair (mwydod).

What creatures live
in compost? What
can we put in the
compost bin?

Fungi
It's a bit of mold decomposing
all the waste in the compost bin.
Ffyngau
Mae'n walia brown a'i gennellau
yn y bin compost.

What creatures
live in and around
Cardiff Bay?

At the Seaside

How can I open the lock? What other things have locks?

Try This

- Open the treasure chest.

Musical Islands

What you need:

- Pages of newspaper.
- CD player.
- CD of different music.

What you do:

- This is a pirate version of the classic party game “Musical Chairs”.
- Lay out sheets of newspaper in the hall or playground. You will need one less sheet of paper than you have numbers of pupils.
- Play the music. Pupils should travel around the room. They can pretend they are swimming to add to the idea that they are moving around a group of islands.
- Stop the music at random intervals.
- Whenever the music stops, pupils should jump onto the nearest island. You could shout “pirates” to add to the excitement and fun.
- Only one pupil is allowed to stand on each piece of paper. The pupil without an island must leave the game. You could say that they have been captured by pirates!
- Before you restart the music, remove one of the sheets of paper.
- Keep playing until there is one winner.

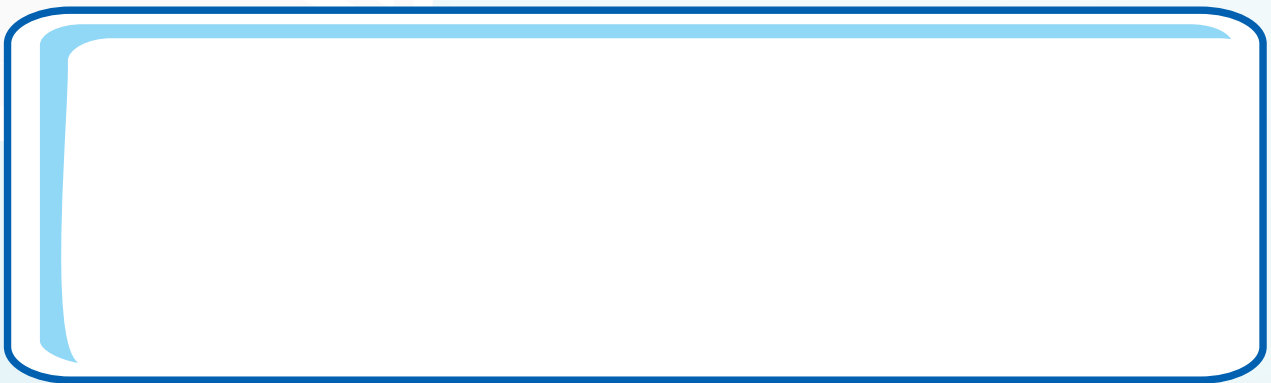

Ask pupils:

- How easy was it to find an island?
- Did you learn any ways to make sure you always found an island?
- Did you and a friend ever land on the same island? How did you decide who should step off?

Visiting the Beach

- Think about all of the different things you like to do at the beach.
- Find out the word for 'beach' in Welsh.
- Find out the words for 'sea' and 'sand' in Welsh.
- You could use: bbc.co.uk/learnwelsh to help you.
- Write a sentence in Welsh in the large bubble to describe to Delyth the best thing for you about visiting the beach.

Shoebox Aquarium

What you'll need:

- Shoebox
- Blue paint
- Paint brush
- Card
- String
- Scissors
- Pencils or crayons
- Green tissue paper
- Stickers
- Glue

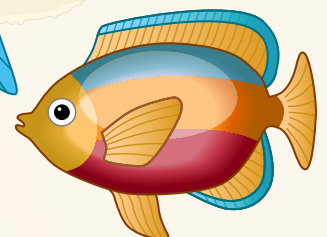

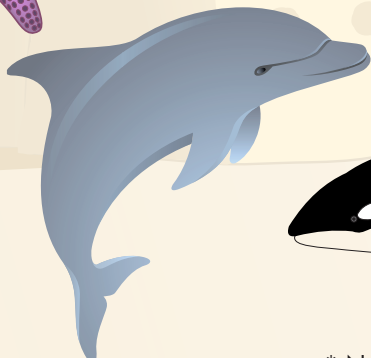

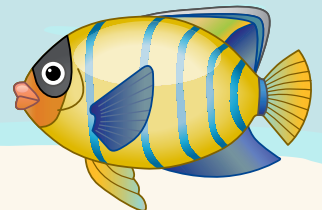

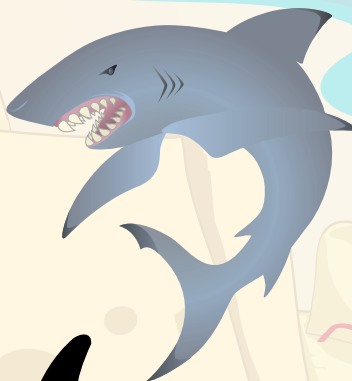

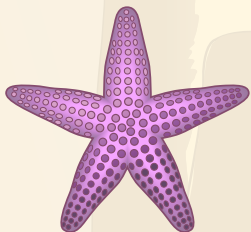

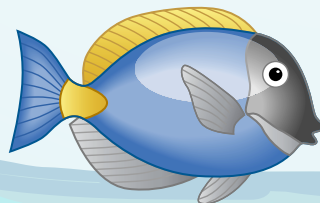

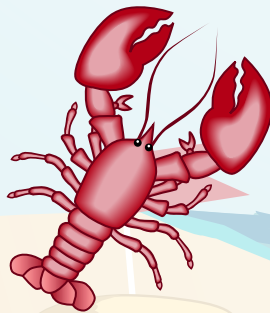

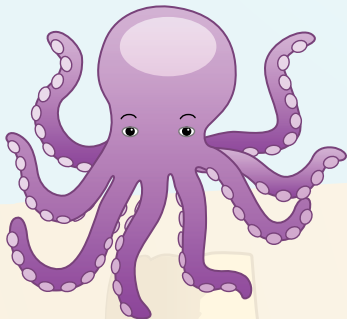

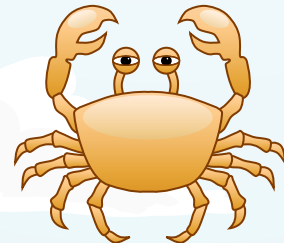

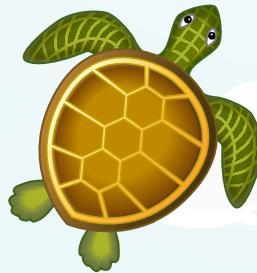

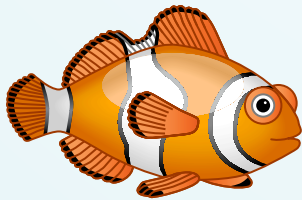

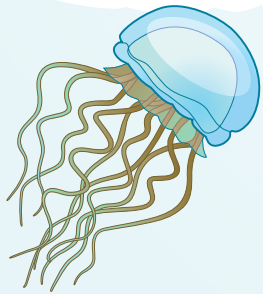

What you do:

- Paint the inside of the shoebox blue and leave it to dry.
- Stand the box on its side (as in the picture).
- Cut out seaweed shapes in the green tissue paper. Stick these on the back wall of the box and along the bottom.
- Draw and colour in fish shapes. You could also do a starfish, crab, octopus or any other sea creature you can think of.
- Cut out these shapes. You may need an adult to help you with the cutting.
- Ask an adult to help you make a hole in the top of each sea creature. Feed string through the hole and tie a knot.
- Make some holes along the top of the box. Feed the string through the holes to dangle your sea creatures in your sea scene.

Sorting Sea Creatures

- Below there are lots of different sea creatures*. With an adult's help, cut out the pictures.
- How can you sort the sea creatures into different groups?
- Why did you choose to sort them in this way?
- Now sort them into different groups.
- How did you sort them this time? Why did you choose to sort them in this way?
- How are these creatures similar? How are they different?

* Not shown to scale
