# Hwb Assignments Update

The Hwb platform is being updated to improve usability and functionality. As part of this work, the Hwb Assignments tool is no longer available and all data within Assignments has now been deleted.

## Alternative tools available through Hwb

Both Microsoft Teams Classes and Google Classroom are widely used across Hwb and are designed for creating Assignments. They allow you to:

- Set, distribute and collect assignments digitally
- Provide feedback, marks and comments in one place
- Attach resources directly from OneDrive or Google Drive and other Hwb tools such as Adobe Express

## Action required

1. Choose either Microsoft Teams or Google Classroom to manage assignments.
2. Set up classes and trial creating assignments.

## Support using Microsoft Teams to replace Hwb Assignments

How to create an assignment in Microsoft Teams

New Microsoft Teams Assignments Features

## Support using Google Classroom to replace Hwb Assignments

How to create an assignment in Google Classroom.

## Other considerations

Some practitioners currently use Assignments to share Hwb Playlists. From 17th July 2026:

- New Playlists can no longer be created
- Existing Playlists will remain available but will be **read-only**

## Hwb Support

If you need support, contact Hwb.Datblygiadau@llyw.cymru or Hwb.Development@gov.wales
